

Draw My Mystery Animal

You have discovered a new species of animal!

Draw a picture of the new animal on a piece of paper.

How many eyes does it have?

How many feet does it have?

How many mouths?

How many ears?

How many noses?

How many arms?

Other special features?

Clothes?

Color?

Think about these questions while you are drawing. Then you will describe your animal to me and I will draw it on my paper. Let's see how close I get!
