

Halloween Bingo

Rules

You can create cards with each Halloween word/picture and pull them randomly to allow your student to identify the word and place a marker on their bingo board. (3 different bingo boards are included in the presentation) The first player to get five in a row yells BINGO and wins. When a student calls BINGO, encourage them to tell you each of the five pictures that are in their bingo.

You may also use a random wheel generator or a random list generator
